

## ERBB2 Antibody Polyclonal

*Herstatin, Rabbit Anti Human Polyclonal  
ABP0010*

### Product Overview

**Name** ERBB2 Antibody Polyclonal

#### Description

Herstatin, Rabbit Anti Human Polyclonal

#### Synonyms

NEU, NGL, HER2, TKR1, HER-2, c-erb B2, HER-2/neu, Receptor tyrosine-protein kinase erbB-2, EC 2.7.10.1, p185erbB2, C-erbB-2, NEU proto-oncogene, Tyrosine kinase-type cell surface receptor HER2, MLN 19, CD340 antigen.

#### Introduction

HER-2/neu (erbB-2) encodes an 185-kDa orphan receptor tyrosine kinase that is constitutively active as a dimer and displays potent oncogenic activity when overexpressed. Herstatin, as the product of alternative HER-2 transcript, retains intron 8. The herstatin mRNA is expressed in normal human fetal kidney and liver, but is at reduced levels relative to p185HER-2 mRNA in carcinoma cells that contain an amplified HER-2 gene. Herstatin appears to be an inhibitor of p185HER-2, because it disrupts dimers, reduces tyrosine phosphorylation of p185, and inhibits the anchorage-independent growth of transformed cells that overexpress HER-2.

#### Source

Escherichia Coli.

#### Physical Appearance

Filtered colorless solution.

#### Formulation

The ErbB-2 filtered (0.4 µm) solution in 0.05M Acetate buffer pH-4 and 5% trehalose.

#### Stability

Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Avoid multiple freeze-thaw cycles.

#### Purity

Greater than 95.0% as determined by SDS-PAGE.

**Precautions**

ERBB2 Antibody Polyclonal is for research use only and not for use in diagnostic or therapeutic procedures.
